

COCAINE VENDORS HEAVILY FINED

Norfolk Druggist is Adjudged Guilty of Traffic That Makes Human Wrecks.

CLERK TESTIFIED AGAINST HIM

Said That Both of Them Had Sold Drug Without Prescription.

(Special to The Times-Dispatch.)
NORFOLK, Va., July 24.—S. T. Richmond and J. Lee Benecia, two of those suspected of being guilty of the illicit trafficking in cocaine, which has made so many human wrecks among the poorer classes of the city, especially the negroes, were tried for the offense in the Police Court today, on warrants sworn out by Chief of Police H. Mallory Boush. Richmond was fined \$100 and costs, but appealed his case to the Corporation Court. Benecia paid his fine of \$25 and costs.

Richmond is the proprietor of an East Main Street drug store, and Benecia is a clerk there. Benecia entered a plea of guilty to the indictment against him, and he was used as a witness against Richmond. In a previous case he was fined \$25 and costs for selling cocaine at Richmond's store. Asked by former Judge Williams, his counsel, who paid his fine, he replied that Richmond did. He also testified that Richmond and he, too, had sold the drug without a prescription from a physician.

Richmond testified: "I can only say that no cocaine has been sold at my place in the last twelve months, nor has it ever been sold there without a prescription. The opinion here is that the law does not provide punishment sufficient for offenders of the kind, and an effort may be made to have it amended."

WANT CAVALRY TROOP.

Governor Will Be Asked to Approve Project.

(Special to The Times-Dispatch.)
NORFOLK, Va., July 24.—The movement looking to the organization of a cavalry troop in this section is likely to assume definite shape within the next two or three days. Within the past several days a number of Norfolk gentlemen standing close to the Governor have made trips to Richmond and urged Governor Swanson to authorize the organization of the troop. While it is not definitely known what the Governor has decided to do in the matter, it is generally believed that he will put his stamp of approval upon the project.

There is naturally some opposition to the cavalry movement on the part of the other State military organizations, in view of the limited means at the disposal of the State for support of such organizations. Still, it is not believed that this opposition has assumed a formidable shape.

If organized, the new cavalry company will be known unofficially as Troop A, there being no cavalry company in the State at present. There are already three companies in the State, and the new company will be known as Troop A, there being no cavalry company in the State at present. OBJECT TO THE PLANT.

Citizens Prefer That Enterprise Be Located Elsewhere.

(Special to The Times-Dispatch.)
NORFOLK, Va., July 24.—Certain citizens of Brambleton Ward have risen to object to the erection of the big power plant of the Norfolk and Portsmouth Traction Company, at the foot of Reeves Avenue. Sixty of the aggrieved citizens of the ward met to consider the matter, and started a campaign against the erection of the plant. They maintain that it will make the neighborhood in the vicinity of it, and at the same time be detrimental to property values.

The recommendation is that the graves be marked with a cross, and that the cross be made of a material that will last. The third order is based on a resolution offered at the New Orleans convention by Dr. Samuel B. Lewis and adopted, and the preservation of the graves of the Confederate dead in the cemeteries in the Northern States.

LEPER IS SEEKING MIRACULOUS STREAM

Syrian Believes He Will Be Healed if He Can Get to Palestine.

(By Associated Press.)
BALTIMORE, MD., July 24.—George Rossett, the Syrian leper, whose presence at various points has lately agitated Philadelphians and the people of Western Maryland, and West Virginia towns, is still at Golden Ring, Md., where he was to-day examined by City Bacteriologist Stokes and Dr. John S. Fulton, secretary of the State Board of Health.

A microscopic examination of the diseased tissues taken from the man's body, pronounced his case genuine leprosy. Dr. Fulton, however, says that the Syrian's disease may be said to be very non-communistic in its climate. Rossett's present desire is to make his way to Palestine, where there is a stream, he believes, will heal him of his affliction.

The health authorities will urge for Rossett at Golden Ring until arrangements can be made for his conveyance to some one of the leper colonies.

OFF FOR CHICKAMAUGA.
Seventy-First Regiment Making Extensive Preparations.

(Special to The Times-Dispatch.)
ETANGLIN, Va., July 24.—Arrangements have been made for the camp of the Seventy-first Regiment, Virginia Volunteers, so far as the different companies are concerned, at Chickamauga Park, Georgia, in August, and the first section of the regiment, known as the "Battalion," will leave Norfolk on the Seaboard Air Line at 8:30 o'clock on Friday morning, the 27th, on a special train. It is reported that tourist cars will be furnished the regiment, and in that event the journey will not be as tiresome to the men as it otherwise would be.

The regiment is due to report at Chickamauga Park on Sunday morning, the 28th, which will give sufficient time in which to reach that place. When the troops arrive in Atlanta they will be transferred to the Louisville and Nashville Railway, along which is located the most beautiful scenery, and which will put them in Chickamauga without further change.

Company I, at this place, has been making preparations for some time, and a detailed improvement is to be seen in the camp, due to the hard and faithful work of Captain J. P. Gay Jr., and his subordinates, and to the interest manifested by the members of the command in the encampment, not least in the work of the officers and men working together there is very apt to be something doing.

New uniforms have been received by Company I, and issued out, which includes new full dress and the khaki uniforms, campaign hats, etc. Several new men have been recruited during the last month. Company I will take between fifty and sixty men, and will be in the first section to move. Company I has two drills a week, and last Tuesday night received a visit from Major B. W. Salomon, of Norfolk. The company went through guard mount, which was reviewed by Major Salomon.

This encampment is compulsory, and every enlisted man has to go.
